

**ALTERNATE MODULE 10-82  
WITH TOP CONECTIONS**

1. FAN MOTOR
2. OPTIONAL AC/DC BATTERY CHARGER (CONVERTER)
3. THERMOSTATIC CONTROL UNIT (INCLUDES 15' WIRING HARNESS WITH MATING PLUGS)
4. FUSE
5. ELECTRONIC MODULE

- CAUTION -

PLEASE CAREFULLY READ THIS SUPPLEMENTAL INSTRUCTION SHEET AND THE COMPLETE COLDMACHINE INSTRUCTION MANUAL BEFORE PROCEEDING WITH YOUR INSTALLATION. FAILURE TO FOLLOW THESE DIRECTIONS CAN RESULT IN DAMAGE TO YOUR COLDMACHINE UNIT AND LOSS OF YOUR LIMITED WARRANTY COVERAGE.

This ColdMachine has a new updated Electronic Module that incorporates a condenser fan cut-off feature. This means that when the Electronic Module protection system goes into its protective mode, the condenser fan will also shut off. Please read page 22 (Electronic Module Protection System) of the installation manual.

The following replaces CONNECTING 12 VOLT D.C. SUPPLY TO UNIT on Page 20:

- First: Turn the thermostat control knob all the way counter-clockwise (CCW) to the off/defrost position. Resistance will be felt. Keep turning until a sharp click is heard.
- Run wiring: connect to the + and - terminals on the Electronic Module of the Compressor Unit. Note polarity label at top of Electronic Module! DO NOT REVERSE POLARITY! DO NOT TOUCH THE THREE TERMINALS AT THE BOTTOM OF THE ELECTRONIC MODULE!

If you connect in reverse, the fuse located in the Electronic Module will blow, the compressor will not start and the condenser fan will not run. A spare fuse is bagged and stapled to the compressor wire harness (Buss GLN-10 or AGC-10; replacements available from factory). Rewire and replace fuse.

IMPORTANT! CHANGE OF ADDRESS INFORMATION

ADLER BARBOUR is now a division of International Marine Instruments, Inc.

Therefore effective 12-1-83

All Cold Machine Warranties, Repair, Parts and Customer Service are now in our new Manufacturing facility at:

IMI SERVICE CENTER  
3 REPUBLIC ROAD  
N. BILLERICA, MA 01862  
TEL: 617-667-6318

Please return your warranty card to this address.

If it becomes necessary to return any part(s) of your cold machine system for factory service, in or out of warranty ship to the above address.

Please do not ship or mail anything to the Pelham New York address. This will only delay our response and prevent us from handling your needs promptly.
